SUMMARY

BSCS student at FAST NUCES Lahore (6th semester) with hands-on experience in full-stack development, machine learning, and cloud deployment. Built and deployed production-level projects including a business web application and a CNN-based image classifier. Seeking to apply technical and analytical skills in a structured corporate environment.

EDUCATION

Bachelor of Science in Computer Science (BSCS)	2022 – Present
FAST National University of Computer and Emerging Sciences, Lahore	
Currently enrolled – 6th Semester Intermediate (ICS)	Completed 2022
Brookfield College, Lahore	

TECHNICAL SKILLS

Programming Languages	C++, Python, Assembly (COAL)
Web & Backend	HTML, CSS, Node.js, MS SQL, PostgreSQL
Machine Learning	TensorFlow, NumPy, CNN, Model Training
Tools & Platforms	Docker, AWS

PROJECTS

Incozi – Business Services Web Application	2024
<i>Full-Stack Development</i>	<i>Node.js, PostgreSQL, HTML, CSS</i>

- Developed and deployed a full-stack web application for a Chartered Accountant offering U.S. incorporation, taxation, and compliance services to international clients. Designed PostgreSQL database schema and integrated a secure online payment system. Implemented structured onboarding workflows to streamline foreign client registration

Quick Draw Image Classification	2024
<i>Machine Learning</i>	<i>Python, TensorFlow, Docker, AWS</i>

- Developed an image recognition system using a Convolutional Neural Network (CNN) to classify hand-drawn sketches across multiple categories
- Performed data preprocessing and model training for multi-class classification
- Containerized the application using Docker and deployed on AWS for scalable inference and remote accessibility

Letter Catching Game	2023
<i>Low-Level Programming</i>	<i>Assembly (COAL)</i>

- Designed and implemented an arcade-style letter-catching game using COAL Assembly language
- Focused on low-level memory manipulation, register management, and direct control of input/output operations

EXTRACURRICULAR ACTIVITIES

SOFTEC Society, FAST NUCES Lahore	2024
<i>Infrastructure Team – Décor</i>	

- Contributed to event infrastructure and décor setup for SOFTEC, one of Pakistan's largest student-run tech competitions

SOFTEC Society, FAST NUCES Lahore	2025
<i>Cybersecurity Wing – Participant Support</i>	

- Assisted cybersecurity competition participants with queries and logistics during live competition rounds
